

Flexi-Tainer.

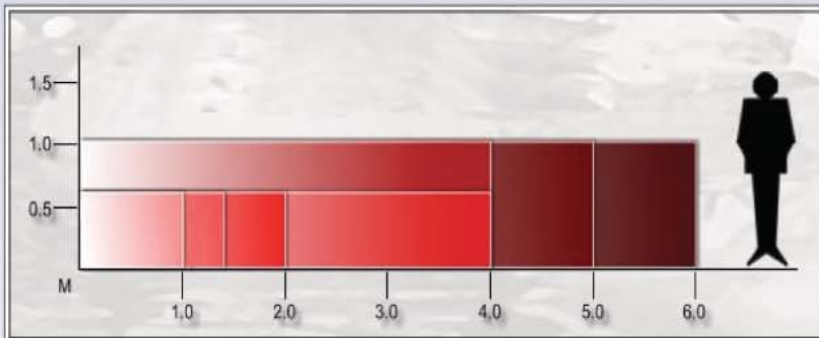

Convenient, Compact Storage and Supply.

Providing simple and flexible liquid transport and storage, the Flexi-Tainer is constructed from heavy duty flexible PVC coated fabric. Safe and reliable, the Flexi-Tainer is fitted with relief valves to prevent overfilling and a robust 50mm ball valve with quick release couplings for easy connection. Popular with the military, fire brigades, foresters and farmers, Flexi-Tainers with 'food grade' PVC coating are also supplied to relief agencies to provide drinking water to famine stricken areas. They come with a protective holdall supplied as standard.

Technical Specifications

Model Number	Capacity (Litres)	Length (M)	Width (M)	Height (M)	Packed Dimensions (M)	Packed Weight (Kg)
SP500	500	1.0	1.2	0.6	0.60 x 0.30	11
SP1000	1,000	1.4	1.6	0.6	0.70 x 0.40	17
SP2500	2,500	2.0	2.2	0.6	0.80 x 0.45	30
SP3000	3,000	2.5	2.2	0.6	0.85 x 0.45	35
SP5000	5,000	4.0	2.2	0.6	0.95 x 0.50	46
SP8000	8,000	4.0	2.2	1.0	1.10 x 0.50	58
SP10000	10,000	5.0	2.2	1.0	1.20 x 0.55	64
SP12000	12,000	6.0	2.2	1.0	1.20 x 0.65	72
SP15000	15,000	5.5	2.8	1.0	TBC	TBC
SP25000	25,000	9.5	2.8	1.0	TBC	TBC

Advantages

Fabricated from high tenacity polyester cloth coated with P.V.C. Durable, versatile and easy to deploy. Folded compactly for easy efficient storage and transport. Radio Frequency (RF) welded seams for strength and integrity. Excellent resistance to extreme weather conditions, abrasion, corrosion and long term standing use. Ready for immediate deployment when leaving our manufacturing facility. Easy to repair. Draining is achieved quickly and easily via gravity flow.

Applications

- Emergency water.
- Remote Storage.
- Foam Concentrates.
- Chemical waste.
- Fertilisers.

All of JW Automarine's products are manufactured in accordance with **EN ISO 9001:2000**
