Flexi-Dams are self supporting liquid containers with an inflatable collar, ready for instant deployment to safely hold water, chemicals, fuels, pollutants and more. Used in a wide range of environments, they are popular with Emergency Services globally due to their light weight and compact stowage, making them an essential part of the fast response to situations.

Durable, easily handled and with a wipe clean surface, the Flexi-Dam can be supplied with a range of valves and connection fittings. Fabricated from a tough PVC fabric with a load bearing structural polyester scrim, coated with PVC for durability & UV resistance. Manufactured using Radio Frequency welded seams for strength and integrity. Heavy Duty and Food quality fabrics available, JWA also offers custom design and manufacturing to meet your requirement. C/W Holdall, Foot Pump & Repair Kit.

Renowned the world over, JW Automarine has led the way in subsea and surface recovery & deployment airbags since 1972. Manufactured in the UK, our experienced technicians use the highest quality fabrics and materials to produce a product that can be relied upon in the harshest of environments.

JW Automarine supplies only the highest levels of service and support, as you would expect from a specialist British manufacturing company.
