JW Automarine lifeboat test kits are a complete solution for the safe, efficient and accurate water weight load testing of lifeboats. Durable, easily handled and with a wipe clean surface, the bags are fabricated from a tough PVC fabric with a load bearing structural polyester scrim, coated with PVC for durability & UV resistance.

Our hoses, manifold and pumps are all precision made from the highest quality material to ensure durability and value for money. Supplied complete in a fork lift/crane sling compatible, heavy duty plastic transit case.

Bag Sizes from 75KG to 500KG available.

Renowned the world over, JW Automarine has led the way in subsea and surface recovery & deployment airbags since 1972. Manufactured in the UK, our experienced technicians use the highest quality fabrics and materials to produce a product that can be relied upon in the harshest of environments.

JW Automarine supplies only the highest levels of service and support, as you would expect from a specialist British manufacturing company.
