

Premier Parachute Totally Enclosed Liftbag
500kg to 50 Tonne Lifting Capacity
Enclosed Subsea Air Lift Bags

Enclosed Parachute design for stable use in currents and during re-floatation, low speed towing and positioning.

Single attachment point to the Liftbags load bearing strap arrangement.

Fitted with a Manual Dump Valve and Inverter Line attachment, so can be quickly converted to Open End Parachute Liftbag operation.

Fabricated from tough 3 ply PVC fabric with a load bearing structural polyester scrim, coated on both sides with PVC for durability & UV resistance.

Radio Frequency welded seams for strength and integrity.

Manufactured in accordance with IMCA D-016 Rev 4:2016 standards

Supplied ready for use, complete with user manual and service record book.
